LỚP

LỚP is a sculptural lighting collection.
In Vietnamese LỚP means: *layers*.

LỚP started with the idea of:
something floating into something.
Step by step it evolved into:
a sphere floating within layers.

Once turned on, the reflections of the
sphere on the acrylic layers appear.
Reminiscing of a trail of after images
of a sphere in motion.

The sphere is static, but its plural
reflections bring movement.

LỚP

LÓP

LỚP

Made of 3 millimeters stainless steel, each layers is manually polished by our craftsmen to create a mirror finishing.

With at least 5h of polishing for the smallest size, the stainless steel version is for high end market.

ĐIỂM

ĐIỂM is a range of products, characterized by meticulousness and rawness, reminiscing of Saigon nightlife.

ĐIỂM highlights manufacturing processes such as: cutting, bending, rolling and welding.
